Introduction to Entrepreneurship.

- * To start a business require to identify a better business idea.
- * To develop an idea require to understand what customer believes about the product.
ex:- A runner believe the shoes should be soft, comfortable and flexible, when ^{nike} make their shoes. consider these beliefs of the runner
- * The success of the business not only depends on entrepreneurs. The entrepreneurs need to find out people who believe what entrepreneur believes. If entrepreneurs recruit the people who work for money will resign during the hard time.
ex:- If entrepreneurs believe customer satisfaction is most important thing than profits, require to recruit people who are in the same line.
- * Before implement the idea required to identify within "why customers purchase this product?"
- * Any business in the world there is a high possibility to fail within 1st 5 years period. Hence, entrepreneur require to go with his or her passion to hold the
